

Great Chance to Explore One of Kobe's Local Industries!

Study Tour of "The Kobe Shimbun" Newspaper

Attention International Students Staying in Kobe!

Kobe Shimbun is one of the leading companies in the Kobe area with a 120-year history. The paper is not only engaged in simply disseminating news and information. It also has linkages with institutions such as Kobe University, Kwansai Gakuin University and Konan University. Based on its information-transmitting as well as networking power unique to a local newspaper, Kobe Shimbun is committed to promoting people-to-people connection and helping to shape the local society.

We invite you to gain a closer knowledge of a part of the newspaper-making process starting with editorial work up through printing and delivery. At the same time, you would learn about how the paper reports on disasters and disaster prevention, through which we hope you would come to feel a greater closeness to Kobe Shimbun and deepen your understanding of its work.

In order to prevent the spread of new coronavirus infections, the number of people will be reduced to seven, and the use of a wireless guide system will prevent splashes. In addition, we will cooperate in the temperature inspection and disinfection at the time of reception. We look forward to your participation.
